Foreword

How did you, do you, and will you stand? ...
Confused beforehand because of an uncertain future and an unimagined goal ...
Confused now because of the contortion of a once conceived ambition ...
Confused later because of the confrontation of society with your own established idea of your place in this world ...
How will you handle this confusion? ...
Will you surmount it? ...
How will you stand? ...

Let's see, Is it "vastaverunt" or "vastaverint"?

School work can't be this much fun!

Peek - a - boo Christmas tree!

It must be pretty funny.

A Miss Pinson special.

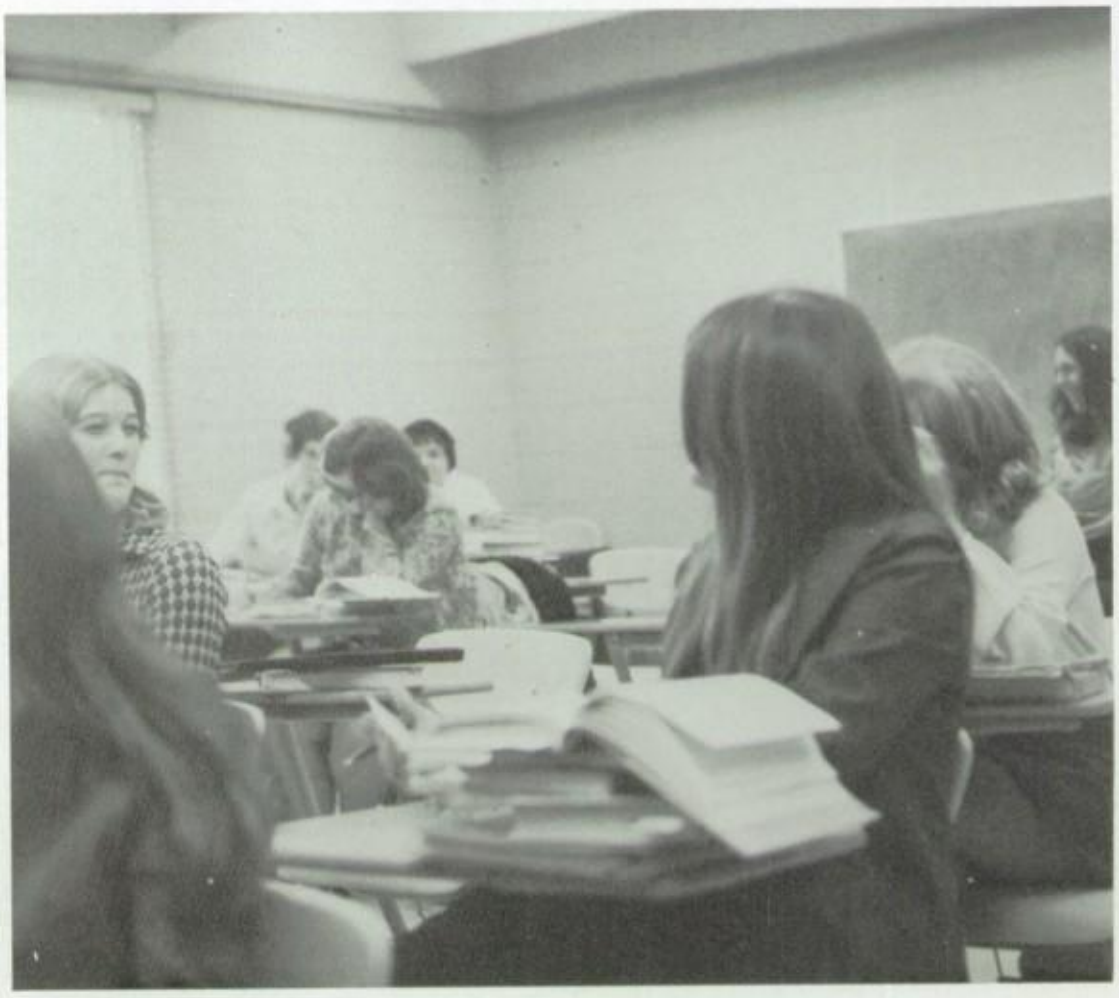
Remember, don't look at the keys.

Studying, a real hassle.

Some teachers are as good as Sominex.

Nobody really cares about studying.

Don't just sit there—start typing.



Got any second declension masculines?

Carol, it has been
nice knowing you
all of these years.
Stay as sweet
and cute as
you are and
you will go
far in life.
Best of luck,
Brenda

Stick around.

One of the best things about growing up in this area is that you never have to leave it. Because its economy is growing by leaps and bounds, producing new job opportunities in both business and agriculture. Too, you'll find technical and higher education facilities second to none. So, come graduation time, stick around. You won't find a better place to live, work and play.
